These comments could include clarifications of your responses to the other items in this section, specific examples of instructor activities, or additional observations of the instructor's teaching not reflected in the other items in this section.

- Great professor, clarified content in a good way, offered great explanations and exam reviews covered a lot of content that was going to be on some of the exams.
- If it wasn't for her I would never be able to understand this material, she always goes into depth with everything!
- I enjoyed biology. I think the only thing that could be improved is when we are in a week for the exam, we still have to do Brightspace assignments and notes for the next topics after the exam. It takes up time for studying.
- Professor Chu made us feel welcome by greeting us and checking in to see how we're doing. She has engaged us with questions to check in on our understanding. Does review the material from previous lesson at the beginning of class and still manages to finish on time. Doesn't bombard us with info. Just enough. Provides multiple practice sheets to prepare for exam. Has created kahoots as an engagement in learning. Challenging exams to test our knowledge and clear exam review sheets. Lovely professor.
- I liked that Professor Chu would draw out all the cycles that were connected to a topic we were covering. I found it helpful in gaining a better understanding of the material for the course.
- I believe Dr. Chu is excellent at teaching the class. She provides diagrams, writes down on the board easy ways to remember topics. She's passionate about what she's teaching and I think anyone could see that clearly.
- Biology is very flexible unlike chemistry. There's so many answers to one question and Dr. Chu always find a way for our answers to be reasonable with the questions being asked. One thing that she does is literally make us sit in silence if no one answers her question which always makes someone answer because who likes sitting in silence.
- Prof. Chu is very good at lesson planning and creating an engaging lecture. Slides along with hand drawn images on the whiteboard to further explain her slides. Very informative.

- SHE WAS VERY ORGANIZED WITH THE COURSE AND KNEW WHAT SHE WA TEACHING. SHES THE BESTTTT <33333333!!!!!!!
- Course was organized into units of 4 chapters for which we were tested on for each exam. Slideshows were created with enough information to rely on as study guides. In addition fill the blank in study guides were created. And answers can be found in slideshow and cross referenced back to textbook. Helpful videos were posted to bright space to grasp concepts.
- Professor Chu provides a lot of outside videos and readings to help us understand concepts in an easier way.
- Dr. Chu is a very reasonable and understanding professor. I had her for SCI 100 last semester so I already knew how she was like before so when I saw that she was teaching bio, I had to lock her class in.
- A decent amount of work to do outside of the classroom but the resources that are included in the class are plenty to help complete it. She offers outside links to videos and articles for students who are interested in learning more about specific topics.

- N/A
- Professor always responds warmly never with an attitude or dismissive manner. Makes you feel that it's ok to not always give the right answer. Always let's us know her availability on campus and is responsive to emails
- The professor was always respectful and kind to students.
- Dr. Chu always does a great job at addressing any concerns that we may have and answers them to the best of her ability.
- She's really laid back and isn't stern to the point where we cant even talk to her. She always expresses her gratification when we get any answers correct and the words of affirmation makes it so different students participate too.
- Prof. Chu is very respectful and never forces students to participate (which I appreciated) but always encouraged students to answer even if they're not sure. When a student is wrong, she gives another the chance to answer and gives a clear explanation about what the correct answer is.

- I WAS VERY HAPPY, I WILL MISS HER SO SO MUCH
- Great professor promoted student success . Pushes you to think and emphasizes key points
- Although I may not have always put my best foot forward, I enjoyed the class and it helped me understand and get ready for future courses that I will take.
- I don't expect any science course to be easy so I came in with the mindset that I need to bust my ass with studying and I had to do exactly that.
- It was a very challenging course for me, but even so I learned a lot from Prof. Chu and was very happy with how the semester was even if it was challenging.

- She's just the best, I love her and she made this class very enjoyable
- Personable professor I'm feeling repetitive now lol. I am grateful for this professor. I can say I would look forward to Tuesdays and Thursdays as an outlet out of my daily life related things
- Professor Chu made great effort to teach our class in a way that was understood and provided many opportunities for me to go to her privately with questions. She was a professor that I felt extremely comfortable being able to ask for help and feel supported when I was lost.
- Dr. Chu is an incredible professor and I would happily take a different course taught by her.
- Prof. Chu was hands down one of the best professors I've ever had, I would 100% recommend as well as taking another course taught by this professor.
- Amazing professor. She is extremely nice and helpful. She makes notes for the lecture, helps explain very thoroughly to understand, is always reachable office hours, email, even zoom. Will always do reviews. Offers videos and other material to understand lesson content. Overall great.
